

Updates to DLT regulatory directory

ICMA has updated its [DLT regulatory directory](#) with several new regulatory and legislative developments, national blockchain initiatives, publications and consultation papers. The directory was initially published in December 2019 and seeks to provide a non-exhaustive overview of recent DLT regulatory guidance, legislative initiatives, as well as related strategy papers and publications in selected jurisdictions across Europe, North America, and Asia-Pacific.

Notable additions include: the introduction of [H.R.6938](#) (19 May 2020) in the US House of Representatives requiring the Secretary of Commerce and the Federal Trade Commission to conduct a study on blockchain technology; the official launch of China's [Blockchain Service Network](#) (BSN) initiative (25 April 2020); AMF's publication of [Position DOC-2020-02](#) (6 March 2020) on market infrastructure; clarifications regarding the notion of trading venue, applicable in particular to financial instruments registered in a distributed ledger; and the release of Australia's Department of Industry, Science, Energy and Resources [National blockchain roadmap](#) (February 2020).
